1.2 Airport Pickup

You will be picked up by a BIT student helper on Sunday. For your personal safety and convenience, please try to select a flight that arrives in daytime. 😊

Please also send your arriving and departing flights info to zhangweiqibit@qq.com, you will be contacted by a BIT helper by wechat.

Date of Arrival :	dd/	mm/	yy		Flight Number:
Date of Departure :	dd/	mm/	yy		Flight Number:

If you missed the pick up, you may use the following information to arrive by yourself.

1.3 Arrive by yourself

From Beijing Capital International Airport

By AIRPORT SHUTTLE BUS: Take Airport Shuttle Line 4 (the direction of Gong-Zhu-Fen) to Friendship Hotel. The ticket costs 30 RMB yuan. Walk westward about 500 meters along the road. The campus (North Gate) is on the opposite side of the road. Your hotel(IEEB) is the tall Building on your right hand side when you enter the North Gate. More information about airport shuttle of BCIA can be found at: <http://en.bcia.com.cn/traffic/airbus/index.shtml>

By TAXI: When taking taxi at the Capital International Airport, please go to the taxi station and queue for the authorized taxi. Don't follow those who come to you to offer taxi service. An authorized taxi has a "TAXI" sign on top of the car, a price table attached inside the window and a driver's Service Supervisor Card inside the car. The total fee from the airport to BIT is usually less than 200 RMB yuan, including 10 yuan of highway fee.

By SUBWAY: Airport express to Dong Zhi Men and transfer to Line 2, to Xi Zhi Men, transfer to Line 4 to Wei Gong Cun Station, Exit A. Then walk 100 meters along the road and you will arrive at the East Gate of the campus.

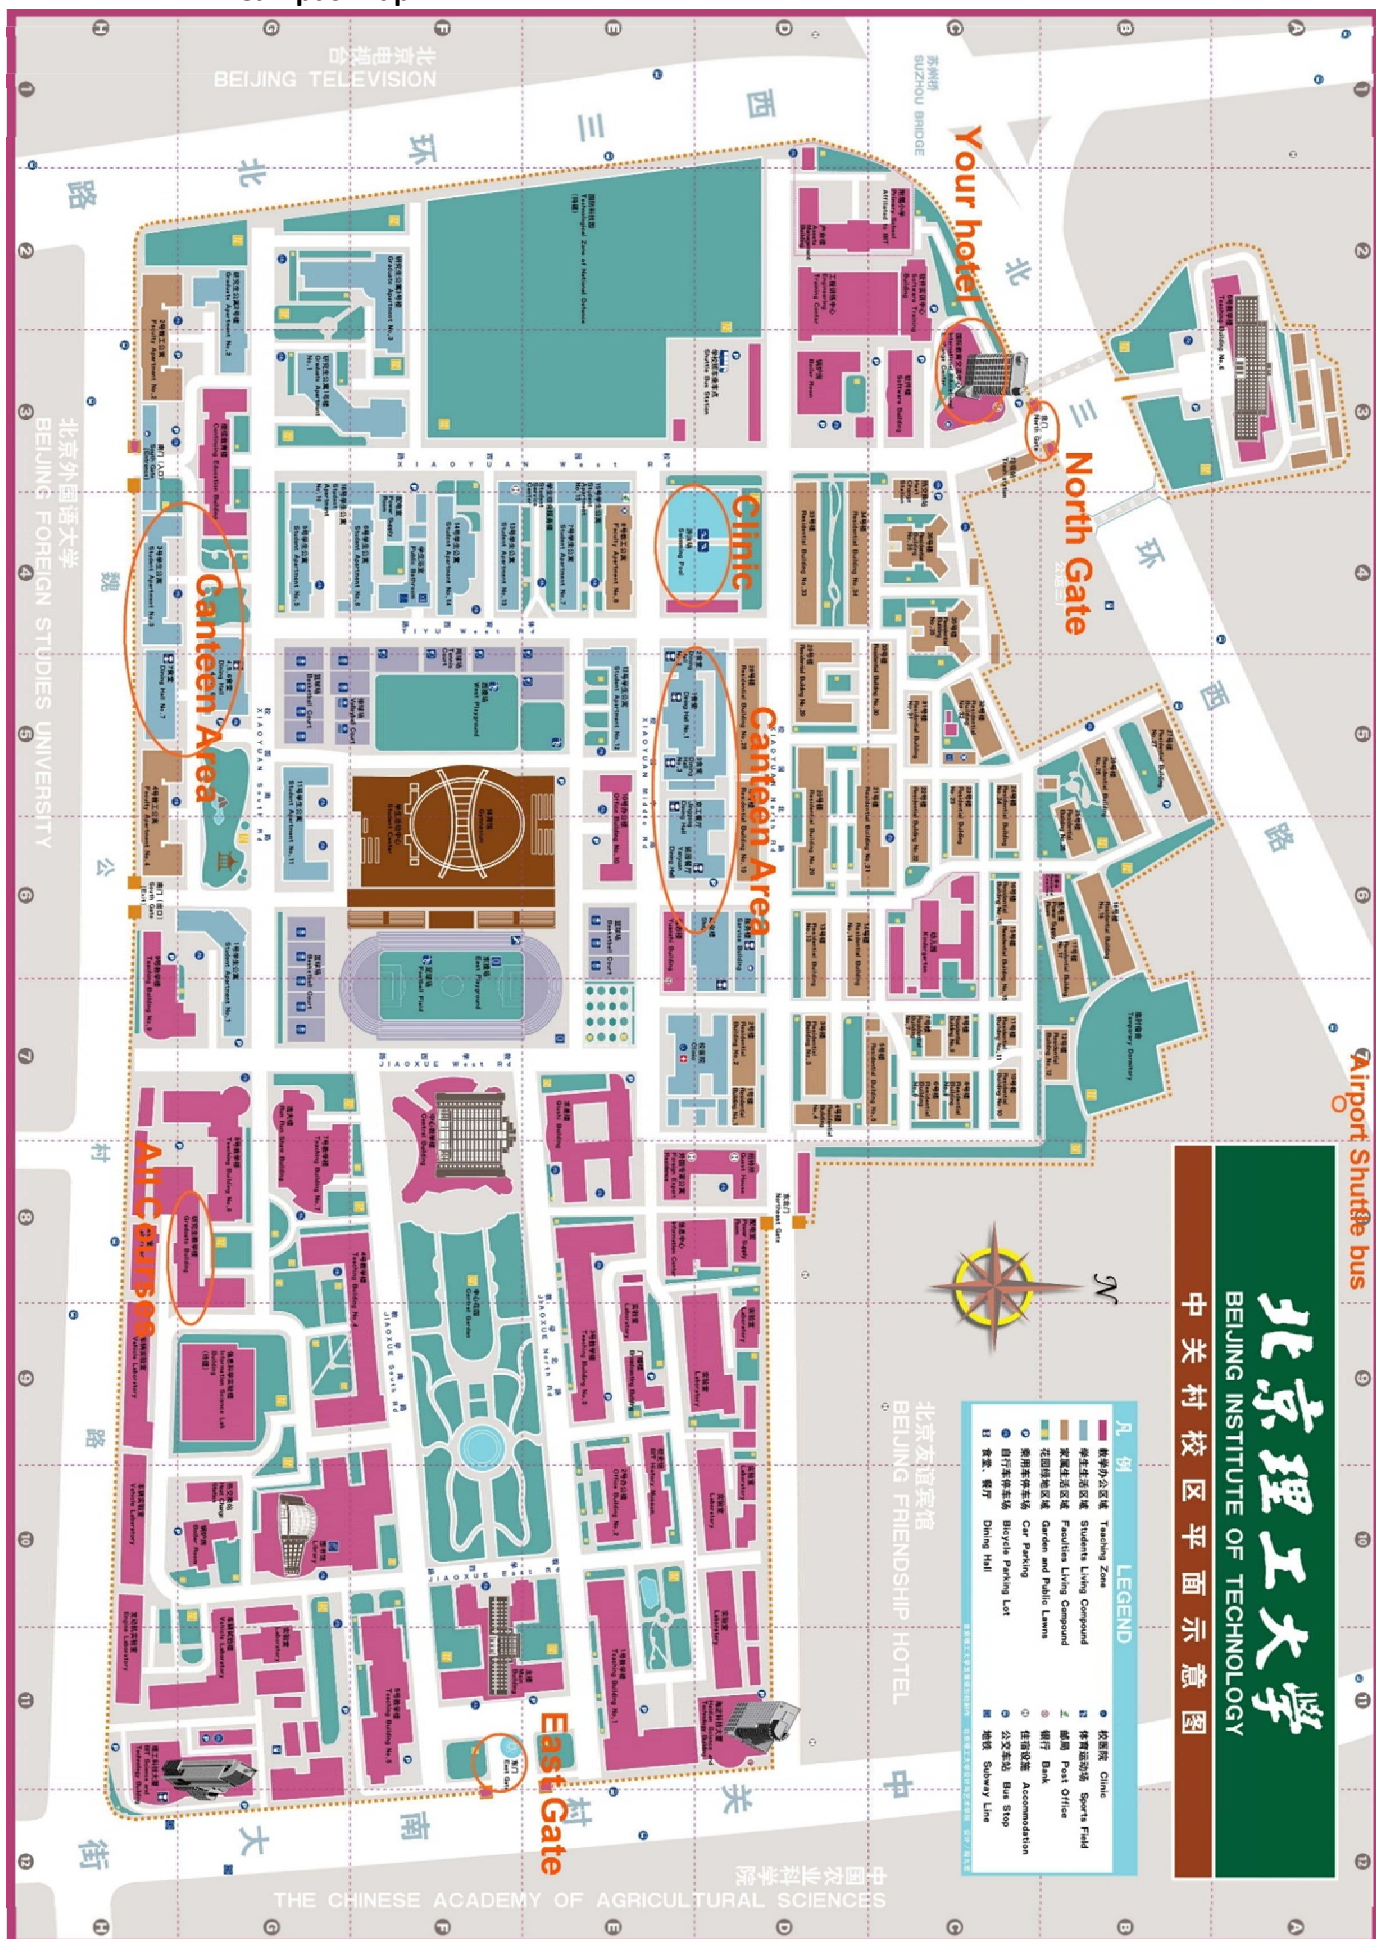

Before you leave for China, please print the address of BIT in Chinese "北京理工大学 国际交流大厦(北三环西路甲 66-1 号 北京理工大学北门)" and show this to the driver when you take a taxi at the airport so that the driver will know where to go.

2. Program

2.1 Internet of Things: to learn and practice

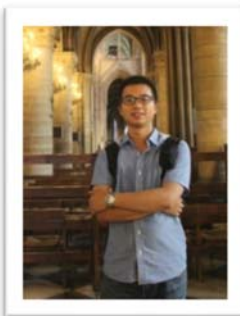

This course provides an overview understanding of Internet of Things (IOT), including several specific topics of IOT, such as, IOT Framework, visual computing, and related topics of Data Center, Big Data Theory in IOT, Data Analysis.

More specifically, the foundation and introduction of internet of things will be proposed at first, and then several key technologies in IOT will be described. After that, related and surrounding technologies of IOT will also be demonstrated in class, such as visual computing, cloud computing, big data as well as data science. Business IOT applications will also be involved in class, and the group will have opportunities to visit Beijing Companies such as IBM, SAP, Didi.

During the program, participants will do a group project in IOT related topics with the guidance of teachers. To conclude this program, participants are required to do a presentation about their projects, which will be evaluated. Students who successfully complete the program will receive Credentials of Study.

Some of the Speakers:	
Dr. WANG Jianan 	Dr. Wang Jianan is currently an Associated Professor in the School of Aerospace Engineering at Beijing Institute of Technology, Beijing, China. He is also the director of Department of Fundamental Research in Institute of Science and Technology at BIT. He received his B.S. and M.S. in Control Science and Engineering from the Beijing Jiaotong University and Beijing Institute of Technology, Beijing, China, in 2004 and 2007, respectively. He received his Ph.D. in Aerospace Engineering at Mississippi State University, Starkville, MS, USA in 2011. His research interests include cooperative control of multiple dynamic systems, UAV formation control, obstacle/collision avoidance, trustworthy networked system, and estimation of sensor networks. He is a senior member of IEEE and AIAA.
Prof.CHE Haiying chrissie@bit.edu.cn	Research interests are as follow: Big data analysis Recommendation system Intelligent Manufacturing Petri Nets and XML Nets Based Business Process Modeling Mobile Business Process Modeling Location aware Business Process Modeling

	Published more than 20 EI indexed academic papers in the above fields and involved in many projects from Natural Science Foundation of China. And have taken charge of many enterprise system projects. Certificates Many SAP international certificates of enterprise management software such as TERP10, ABAP, HANA, Design Thinking and so on.
Prof. ZHANG Zijian zhangzijian@bit.edu.cn 	Zijian Zhang is an assistant professor in the School of Computer Science and Technology at Beijing Institute of Technology. He was a visiting scholar in the Ubiquitous Security and Privacy Research Laboratory, State University of New York at Buffalo, USA, 2014-2015. As a main author, he took part in drafting a China National Standard, “Trusted computing specifications – Part 5: Trusted connect architecture”. He is a member of Association for Computing Machinery, China Computer Federation (CCF), and CCF Young Computer Scientists and Engineers Forum. He is also a chair for 2016 IEEE Cyber Science and Technology Congress, Special Session on Cyber Security and Privacy with Network Log Analytics, and IEEE CCNC 2014 Special Session on Game Theory in Mobile Internet. His research interests include data privacy in smart grid, authentication and key exchange protocol design, vehicular ad-hoc network, and payment security.
Prof. LI Fan fli@bit.edu.cn 	She received the PhD degree in computer science from the University of North Carolina at Charlotte in 2008, M.Eng. degree in electrical engineering from the University of Delaware in 2004, the M.Eng. degree and B.Eng. degree in communications and information system from Huazhong University of Science and Technology, China. She is currently an associate Professor of school of computer science at Beijing institute of Technology. Her current research focuses on wireless networks, ad hoc and sensor networks, and mobile computing. She has won three best paper awards, i.e., ACM MOBIHOC 2014, IEEE

	MASS 2013, IEEE IPCCC 2013.
Prof. LI Xin  xinli@bit.edu.cn	She received the B.Sc. and M.S. degrees in computer science from Jilin University of China and the PhD degree in computer science in 2009 from Hong Kong Baptist University. She is a postdoctoral teaching fellow in the Department of Computer Science, Hong Kong Baptist University, from 2009 to 2010. She is currently an assistant professor in the School of Computer Science, Beijing Institute of Technology. She has served as a program committee member of a number of international conferences, as well as a reviewer of renowned journals. Her current research interests include machine learning, reinforcement learning, as well as their applications to social network analysis, vehicular networks, and robotics.
Prof YANG Xu pyroyangxu@bit.edu.cn 	Xu Yang received the PhD degree in microelectronics from Tsinghua University, Beijing, China, in 2009. From October 2009 to February 2012, he was a postdoctoral researcher in the Department of Computer Science, Tsinghua University. Since March 2012, he has worked at Beijing Institute of Technology, Beijing, China. His research interests are in the areas of parallel computing, big data, computer architecture design, and compiling. He teaches Introduction to Data Science and Advanced Data Science. He now teaches course of 'Introduction of Data Science.'
Prof GAO Guangyu guangyugao@bit.edu.cn 	Guangyu Gao is an Associate Professor at School of Software, Beijing Institute of Technology, China. He received his Ph.D. degree in Computer Science and Technology from Beijing University of Posts and Telecommunications (BUPT) in 2013. He also studied at National University of Singapore as a government-sponsored Joint-Ph.D. student from 2012 to 2013. He now teaches Undergraduate Courses of 'Programming Techniques and Practice' and 'Software Requirement Engineering and Modeling', as well as graduate course of 'Software Theory and Engineering' in BIT School of Software.

Practice: IOT related Project

Dr Meng SHEN

shenmeng@bit.edu.cn

In this course we will learn the fundamental concepts and design principles of IoT, and explore a young but rich body of exciting ideas, solutions, and paradigm shifts. The students will investigate the problems and solutions introduced by IoT technologies and applications to traditional networking. Through homework assignments and laboratory activities, we will have a deeper insight into IoT technologies and applications.

He is currently an assistant professor at School of Computer Science, Beijing Institute of Technology. He received the B.Eng degree from Shandong University in 2009, and the Ph.D degree from Tsinghua University in 2014, both in computer science. He was a visiting scholar at University of Essex, UK, University of Massachusetts at Amherst, US, and Universitat Politècnica de Catalunya (UPC), Spain. His research interests include network traffic engineering and network virtualization. He has served as reviewers for multiple international conferences, journals and transactions such as IEEE TPDS, IEEE Network Magazine, IEEE Globecom. He is a member of IEEE, ACM

2.2 Chinese Culture: to experience

During your stay in BIT, you will have the chance to learn some basic Chinese language and experience Chinese culture. Activities include:

Chinese Language

This class will equip you with some simple Chinese expressions for you to survive in Beijing. You will learn how to say hello, how to go shopping and order dishes or get around in Beijing.

Chinese Painting, Calligraphy, Paper Cutting

You can experience these above Chinese arts with a tutor.

You can also visit some of the scenic spots in Beijing during your free time. Some of them will be included in the program.

Tian'anmen Square

Located at the center of Beijing City is Tiananmen Square, where you can visit Tiananmen Tower, Monument to the People's Heroes, Great Hall of the People, Mao Zedong Memorial Hall and see the national flag raising ceremony. Thousands of people come to the Square every day.

With total area of 440,000 square meters (880-m-long and 500-m-wide), the Tian'anmen Square, located in the center of Beijing, is the largest of its kind. Over a hundred years, many ceremonies and demonstrations have been held here.

The Palace Museum(Forbidden City)

Established in 1925, the Palace Museum is located in the imperial palace of the consecutive Ming (1368-1644) and Qing (1644-1911) dynasties. The magnificent architectural complex, also known as the Forbidden City, and the vast holdings of paintings, calligraphy, ceramics, and antiquities of the imperial collections make it one of the most prestigious museums in China and the world. In 1961, the State Council designated the former imperial residence as one of China's foremost-protected cultural heritage sites, and in 1987 it was listed as a UNESCO World Heritage site.

The Great Wall

The Great Wall, one of the greatest wonders of the world, was listed as a World Heritage by UNESCO in 1987. Just like a gigantic dragon, it winds up and down across deserts, grasslands, mountains and plateaus, stretching approximately 21,196 kilometers from east to west of China.

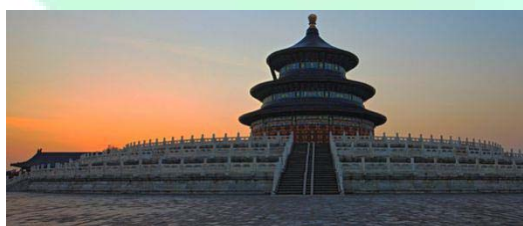

With a history of about 2,700 years, some of the Great Wall sections are now in ruins or have disappeared. However, the Great Wall of China is still one of the most appealing attractions all around the world owing to its architectural grandeur and historical significance.

The Summer Palace

The Summer Palace in Beijing – first built in 1750, largely destroyed in the war of 1860 and restored on its original foundations in 1886 – is a masterpiece of Chinese landscape garden design. The natural landscape of hills and open water is combined with artificial features such as pavilions, halls, palaces, temples and bridges to form a harmonious ensemble of outstanding aesthetic value.

The Temple of Heaven

The Temple of Heaven is located in southern Beijing . It was first constructed in 1420, the 18th year of the reign of Ming emperor Yongle , and was extended and renovated during the reigns of Ming emperor Jiajing and Qing emperor Qianlong . It was the place where the emperors of the Ming and Qing dynasties would worship the god of heaven and pray for good harvest. Covering an area of 273 hectares , it is the largest architectural complex in the world for rituals to pay homage to heaven.

The Olympic Park(Bird's Nest and Water Cube)

The successful Beijing 2008 Olympic Games has left a deep impression on people's mind in the world. Nowadays, the Bird'Nest (Beijing National Stadium) and Water Cube (Beijing National Aquatics Center) become hot

destinations for visitors in Beijing

11

3. Staying on Campus, Exploring Beijing

3.1 Accommodation

You will be staying at the International Education Exchange Building (IEEB) of BIT during this program.

Address of your accommodation in Chinese "北京市海淀区 北京理工大学国际交流大厦"(北三环西路甲 66-1 号 北京理工大学北门).

Check in: 25 November 2018, after 2PM

Check out: 14 December 2018, before 11AM (luggage could be stored)

Facilities:

Standard Double bedroom with:
Air-conditioner, internet access (wifi),
kettle, slipper, face towel, bath towel,
basic toiletries
24-hour hot water

Reception: +86 10 68945611

Electric Sockets in Beijing are like this:
So there is no need to bring adapter.

Room Allocation:

No	Name	Gender	Room No
1	Namitha Sara John	F	TBC
2	Tabitha Leimonis	F	
3	Ushini Attanayake	F	TBC
4	Siying Qian	F

3.2 Eating

Campus Card will be given to you, with 200 RMB topped up in each card. The card can be used on all canteens (identified in Campus Map) on campus. Campus Card can be topped up at the second floor of the Staff Dining Hall (教工食堂) from 9:00am to 11:10am.

Canteens open from 6:30am to 8:15am (breakfast), 11:10am to 13:00am (lunch), 17:00pm to 18:30pm (dinner).

The Campus Card should be returned before you leave. The money in the card is non-refundable. You can also use it in the campus supermarket.

In addition, there are more than 10 restaurants on campus or around. You may choose to have meals there too in cash. Just ask a student helper!

3.3 Get around in the city.

There are 4 gates of BIT, North Gate, North East Gate, East Gate and South Gate. The open hour of North Gate and North East Gate is open 24 hours a day. South Gate is 6:00am to 24:00 and East Gate is 6:00am to 22:00. You can choose the following ways to visit some places during free time.

METRO: The most convenient way to get around in Beijing is by metro. A transportation card will be given to you. There are 50 RMB in each card. You can also top up the card at metro stations with the accompany of student helpers. East Gate: Metro Line 4 can take you to Beijing Zoo (北京动物园), Zhong Guan Cun (中关村), Xidan (西单), Ruins of Yuanmingyuan (圆明园), so as the Summer Palace (颐和园).

BUSES: There are more than 20 bus routes around. North Gate: Bus 367 can take you to China International Exhibition Center. South Gate: Bus 563 can take you to Xi Zhi Men (西直门) or the Fragrant Hill (香山).

3.4 Safety

Please take good care of your own passport, certificate and money to avoid being stolen. Please take care of fire and theft, and to save electricity as well as help our environment, please be sure to turn off all electronic appliances and lights etc. also please be sure to close all of your windows and doors. In your room, please don't move the furniture and don't post anything on the wall. Please don't throw paper into the toilet. Please call the police (Emergency number in China: 110) and student helper in time in case of any emergency to ask for help.

3.5 Student helpers

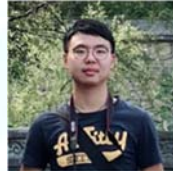

WeChat 

WeChat is a Chinese free messaging and calling app. It is suggested that you download WeChat on your smart phone for the communication purpose during your stay in Beijing. Please visit: <https://www.wechat.com/en/> to download this app (both available for IOS and Android systems) and find your assigned BIT Helper.

Please scan QR Code to add Wechat group:

4. Useful information

4.1 Clinic

There is a clinic in our campus. The medical treatment for overseas students is the same as Chinese students' who are at their own expense. Tel: (+86-10)6891-3923.

4.2 Hospitals around BIT

Beijing Haidian Hospital (海淀医院)

Address: 29 Zhongguancun Street, Haidian, Beijing (中关村大街 29 号), near Haidianhuangzhuang Subway Station(Line 4).

Tel: +86 10 62583042, 62583093

Peking University People's Hospital (北京大学人民医院)

Address: No.11 Xizhimen South Street, Xicheng District, Beijing (北京市西直门南大街 11 号), near Xizhimen Subway Station(Line 4 and Line 2).

Tel:+86 10 8832 6666

4.3 Money and Exchange

There is an Industrial and Commercial Bank of China (near the clinic) and China Agriculture Bank on our campus. Outside of campus, near East Gate there is a China Merchants bank, Bank of Beijing, Bank of China, any of these banks can deal in foreign currencies.

China Merchants Bank (招商银行) is perhaps the most customer-friendly bank for international travelers.

4.4 Shopping

There is a grocery store and a market on campus, and several big shopping centers around, such as the Modern Plaza, the Shuang'An Department Store (双安商场), and Carrefour Super-Market (家乐福), etc.

4.5 Post Office

Off Campus: You can deal in civil or international post affairs:

Post office in Friendship Hotel

Post office of Su Zhou Street near the South Gate

Post office of Wei Gong Cun (魏公村) near the East Gate

4.6 SIM Card

There are three major Chinese mobile companies, you can purchase SIM card at any store of three Chinese mobile companies with your passport.

They all offer pre-paid cell phone service. To get started, simply purchase a SIM card and you can buy top up cards to recharge your account whenever the value in your account is running low. There is a China Mobile store on the second floor of the grocery store on campus. Top-up cards are available at most of the bookstands around campus. If you need help, do not hesitate to contact the BIT Buddies for assistance. Please be note that your phone may not be working in China due to different network standards. For more information, (plan, data usage, etc.), please go to company's websites or call the customer service.

6. Ordinance and rules

- i. A student must obey by the laws, decrees and rules of Chinese government. Not to interfere in China's interior affairs. Not to harm Chinese national security and interests.
- ii. To maintain and promote friendship among students from different countries, respect the custom of Chinese people and other countries, respect BIT faculty and staff. Not to infringe other's right and interests.
- iii. Be conscious to maintain the social order and the order of both teaching and living on campus.
- iv. Without the permission from BIT a student cannot distribute or paste exhibit, advertisement and notice for agora. Neither to organize film, dance, assembly and parade, nor broadcasting in public place. Without permission a student is forbidden to convene persons from outside to campus for mass activities.
- v. Neither do anything that is not in conformity to your status as a student. A student is not allowed be employed.
- vi. International students have to obey BIT's regulations, system and disciplines consciously.
- vii. Never to destroy public property nor involve in gambling, drug, drunk, bust-up, sexual harassment or other bad activities. It's strictly prohibited to buy, sale, hold and use controlled things by public security authority, such as falchion, blade, dagger, saber, etc., gun and pistol, explosive and dangerous materials.
- viii. Visit to website should abide by the laws of China. Do not disobey the relative laws and the BIT Temporary Administrative Measures of Campus Network Safety & Protection. Handling information of China's national security or confidential information is strictly prohibited. Never visit to illegal website, download and spreading illegal information, nor Hacker activity. Each student has the obligation and responsibility to prosecute any illegal activities.
- ix. Abide by China's traffic rules, pay attention to traffic safety. Never drive a vehicle without driver license, nor drive vehicle without a valid license plate. Bar from drive motorcycle.
- x. Do not do religion activities at a place where is not granted by Chinese government. Never take part in any activities held by any illegal religion organization.
- xi. Student has the right and preference to enjoy activities organized by BIT but no transfer to others. One may return the ticket in time to organizer if not to join.
- xii. BIT will punish offender in accordance with the rules. It will be to decrease or stop scholarship, fine, warn, serious warn, keep fault record, disciplinary probation, expel respectively bases on different condition. Misfeasor will be penalized by relative laws. An expelled student must leave China immediately. If a student was supported by scholarship the result will be noticed to the dispatch organization.
